

Greetings Investors!

We hope you had a Happy Thanksgiving, and that you are not too stuffed from the wonderful food but filled with thanks and gratitude being with your family and friends.

It's been a busy November for the WiGL Team-

We cleared our Phase 1 Commercial off the Shelf (COTS) Demo with Cubic and Energous and are extremely excited about the results. Given the success of COTS Phase 1, we will begin Phase 2 in December.

We also started an evaluation with our [Guinn Partners](#). As you know, Guinn has been a long-term partner of WiGL. They are working on our transmitters and doing software development.

Just recently,

WiGL's CTO, Cherif Chibane talks with Microwave Journal Editorial Director, Pat Hindle about how WiGL's technologies will enable touchless, wireless charging of mobile devices.

In addition,

We continue to make great strides in our relationship with FIU. See their Press Release on the work that they are doing with Wireless Power and WiGL. (Attach Press Release).

The Holidays are upon us.

Shop with us on WiGL. - Link over to our website. You can find our merchandise in the Shop tab.
