

Happy February WiGL Investors!

We hope your month has been productive!
It was for WiGL!

As we shared, WiGL has been tentatively selected as eligible for the AFWERX SBIR Phase II Contract funding (hurry!). WiGL is also awaiting information on "three" additional potential government contracts.

Additionally, WiGL participated in the first of many 2022 roadshows; the Synapse Technology Innovation Show in Tampa, Florida. As you can imagine, we received a warm welcome from potential technology partners. Check out the photos below!

Finally, we will soon be restarting our REG A raise. As soon as we gain final approvals, we will be announcing when you, your family, and friends can once again be part of this history making effort with WiGL

We appreciate your continued support of WiGL.
